TO CORRESPONDENTS.

Received.—"E. B.," "T. B. R.," "H. R.," "A Subscriber" (we know of no more. THE BUILDER contains the most information on the subject of drains), "W. M. B.," "One of the Shelved," "H. F. S.," "J. K.," "J. J.," "J. C.," "P.," "J. S. A.," "T. M.," "J. T. W." (thanks), "Old Architect" (will find letter on the subject in present number), "W. L." (we may yet try it), "J. W.," Derby (must allow us to retain our opinion: no offence was intended). "An Account of the Construction of the Britannia and Conway Tubular Bridges, with the complete history of their progress from the conception of the original idea to the conclusion of the elaborate experiments which determined the exact form and mode of construction ultimately adopted," by Wm. Fairbairn, C.E. (London, John Weale, 1849), "On Copyright in Design in Art and Manufactures," by T. Turner, of Middle Temple (London, F. Ellsworth, 1849); "The Drainage of Towns: a Lecture delivered at the Athenæum, Plymouth, January 29, 1849," by A. Hamilton Hampton, Engineer to the Devonport Water Company (London, Whittaker and Co., 1849.); "Morris's Tables for Sawing, Planing," &c. (Miller and Field, Lambeth.)

"*Books, Prices, and Addresses.*"—We have not time to point out books or find addresses.

ADVERTISEMENTS.

PAPER SPLITTING.—Artists, Amateurs, and others desirous of learning this novel and interesting Art, may procure FULL INSTRUCTIONS, by letter, by which they may SPLIT PAPER with the greatest accuracy and expedition, on its separate registering from letter-press, &c., on application by letter, prepaid, inclosing 1s in postage stamps, to "ZETA," 3, Wallbrook, New North-road, London.

CROGGON'S PATENT ASPHALTE ROOFING FELT and INCOMBUSTIBLE FELT, for DAMP WALLS. Sold in rolls, 32 inches wide, price one penny per square foot. Also, Dry Hair Felt for preventing the radiation of heat and deadening sound. Samples, directions, and testimonials sent by post, on application to CROGGON and Co., No. 8, Dowgate hill, Walbrook.

PAPER-HANGINGS by MACHINE and BLOCKS.—The trade supplied to town and country, with machine goods, from first-rate new designs, at the lowest prices they have ever been sold in this country; and block goods, for style and quality, found to be unsurpassed by any house in the trade. All the patterns are registered, and can only be supplied by HENNELL and CROSBY, Queen-street, Southwark-bridge-road. Cheapest house in London for oak, marbles, and panel decorations. A set of patterns, 2s., to be deducted off an order of 4l.—Terms, cash.

PAPER-HANGINGS MANUFACTURED UNDER HER MAJESTY'S ROYAL LETTERS PATENT.

E. T. ARCHER, 451, Oxford-street, solicits an inspection of the various DECORATIVE PAPERS, fitted up to panels on the walls of the entrance to range of apartments in a style expressly for that purpose; where also is kept an extensive stock of every variety of Paper hangings, at the lowest possible price and of the best manufacture, in English and French designs, by the best Artists; and where may be had a large assortment of French and other Continental Paper hangings always on hand.—Builders and large Consumers are particularly invited to the above.—451, Oxford-street.

TODD'S PATENT PROTOXIDE PAINT, at a very considerable REDUCTION of PRICE.—This article is extensively used by the principal Railway and Bus Companies, and by Builders and others for painting Stucco. It preserves iron from rusting, wood from decay, masonry from damp, and the hottest sun has no effect upon it.—Manufactured only by CHARLES FRANCIS and SONS, Cement Works, Nine Elms, London.

EMERSON'S PATENT LIQUID CEMENT is ready for use, is simple in its application, and costs ONE-EIGHTH the cost of oil paint; for beauty it is pre-eminent over all other materials used on the fronts of houses, giving the exact appearance of FINE CUT STONE; can be used at once on fresh Roman cement or other plastering; is particularly calculated for country houses, villas, or gate-posts, as they never become soiled or dingy, which can be beautified in any weather at a trifling cost.—Sold in casks of 1, 2, and 4 cwt., at 8s., 15s. and 28s. each.

PATENT MINERAL PAINT.

Invaluable as a coating for SHIPS' SIDES AND BOTTOMS all kinds of WOOD or METAL work, roofing felt, leaky roofs, spouts and gutters, doors, sheds, railing, and all kinds of out-door work, and being perfectly waterproof, will preserve their surfaces from atmospheric influence and decay,—requires no preparation and will dry in a few hours.—Sold in casks of 5 to 30 gallons. Brilliant Black, 7s.; Rich Brown, 8s. 6d. per gallon.

BELL, LEAR, and Co., No. 16, Basing-lane, Cheapside.

METALLIC FIRE-PROOF PAINT.—This extraordinary substance is found in Table (United States), in a stratum of rock of basin formation. When taken from the mine it resembles in appearance the finest indigo, and has about the consistency of cold tallow; but on exposure to the atmosphere, in a short time it turns to slate or stone.

Its principal ingredients are silica, alumina, and protoxide of iron, which, in the opinion of scientific men, satisfactorily accounts for its fire-proof nature—the two former as the non-conductors, and the latter acting as a cement to bind the whole together, and make a firm and durable paint.

For use it is mixed with Linseed oil, and applied with a brush, the same as ordinary paint, to wood, iron, tin, slate, canvas, paper, &c. It hardens gradually and becomes fire-proof. It is particularly suitable for roofs of buildings, steamboat and ship decks, railroad bridges, fences, &c. A roof coated with this article is equal to one of slate, at a vast saving of expense. It makes the most durable covering for iron work exposed to the weather; and, as it is susceptible of a high polish, has been used to great advantage by coach and cabinet makers in America.

Specimens may be seen, with testimonials, at the office of H. STARR, 58, Paternoster-row, London.

THE PATENT ALKALI COMPANY'S METALLIC BLACK and PURPLE-BROWN PAINTS are applicable to every kind of iron and woodwork, farm, and other out-buildings, shipping, &c. &c., and are pre-eminently superior to all the ordinary descriptions of white or red lead or so-called "Mineral Paints," in point of economy, durability, and preserving quality. Prices—Black, 2l. per ton; Rich Purple-Brown, 2l. Delivered in London or Liverpool, exclusive of packages, which are not returnable, except to be refilled, free of expense to the company. Agents:—Messrs. Bedford, Clapton, London; Messrs. Maidbury and Lee, Bristol; Messrs. Evans and Hodgson, Exeter; Mr. S. J. Fell, Yarmouth, Norfolk; Mr. D. Sandeman, Glasgow; Mr. G. Sandeman, Dundee; Mr. R. Newby, Bradford, Yorkshire; Mr. R. H. Fare, Edinburgh; Mr. W. Bailey, Wolverhampton; Messrs. Vint and Co., Newcastle-on-Tyne, and Sunderland; Mr. Robert Oxland, Plymouth; Mr. Joshua Fox, Tregedna, near Falmouth; Messrs. Bryant and May, Tooley-street, London. To be obtained (also with copies of testimonials) on application at the offices of the company, 20, Frederick-street, London.

JOHN A. WEST, Secretary.

PAINTING WITHOUT SMELL, a fact accomplished by the use of the newly-discovered SWEET OIL of TURPENTINE, instead of the deadly abominations called oil or spirits of turpentine. Paint mixed with it is free from smell, is improved in brilliancy of colour, and the general properties of the lead being neutralized, does not emit those poisonous exhalations which have hitherto been so universally associated with painting. By this really valuable discovery house painting is now converted into a sanitary operation that can be effected at any season of the year, being productive of health and comfort, without causing the slightest derangement to the domestic economy. Sold by the gallon, qrt., or pint, by every respectable oilman in the kingdom, and at the Depôt, 1 Brown's-buildings, Chancery-lane, where may be seen, and copies had of, the original certificate of Dr. Ferry, a senior member of the College of Chemistry. Sold also in sample bottles, 1s. and 2s. each, bottles included.

ARCHITECTS', BUILDERS', and GENERAL FIRE and LIFE INSURANCE COMPANY, 69, Lombard-street, London.

Chairman, SYDNEY SMIRKE, Esq., R.A.

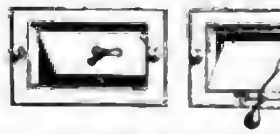
Trustees.

T. L. Donaldson, Esq. | A. Salvin, Esq., F.S.A.
R. Grimsdell, Esq. | O. Smith, Esq., F.S.A.

The rates for both Fire and Life Insurances are as low as can with safety be taken. Those for Life Insurance may be paid either yearly, half-yearly, or quarterly; one half the annual premium may be left unpaid for seven years, or one-third to the end of life. Thus large sums may be insured at the smallest present outlay.

Prospectuses, forms of proposals, &c., may be had at the Office, 69, Lombard-street, or of the agents.

JOHN REDDING, Manager.



DR. ARNOTT'S VALVES for thoroughly VENTILATING APARTMENTS of every description. F. EDWARDS having had the advantage of making them under the immediate direction and patronage of Dr. Arnott, enables him to present the public with Valves of the most approved principle for general use. Prices from 7s. 6d. to 2l. 2s., and upwards. A prospectus, containing every information, to be had on application to F. EDWARDS, 48, Poland-street, Oxford-street, London.

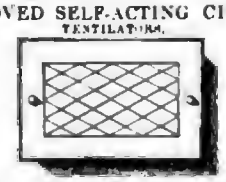
IMPROVED SELF-ACTING CHIMNEY VENTILATORS.



FOR CARRYING OFF HEATED AND IMPURE AIR from drawing-rooms, sitting-rooms, bed-rooms, nurseries, offices, &c. &c., from 3s. each.—HART and PUTTS, Manufacturers and Ironmongers, 65, York-street, Westminster, London.

Stoves, ranges, rain-water pipes, cutters, and builders' ironmongery, to below as any house in London. Delivered free within 3 miles.

TO BUILDERS, CARPENTERS, JOINERS, &c.

MORTIMER'S PATENT MORTICING MACHINE ALEXANDER MENT invites the attention of the trade to the above MACHINES, which can be seen at work daily from 12 noon till 7 P.M., at 29, Thavies Inn, Holborn hill, where orders are respectfully requested to be sent, or to the Manufactory, at, John-street, Aberdeen.

"A more simple, substantial, and unique contrivance for cutting mortises could not be conceived. The machine contemplates every purpose of work, and needs it by the easiest and simplest chances. To builders, carpenters, and joiners, this will prove a desideratum."—*Sheffield Times*.

"By this machine the work is done with perfect accuracy, and so simple that it cannot be said to require skill on the part of the workman. The amount of time which one of these machines would save in the course of a year, would be a very important object to the employer."—*Sheffield Independent*.

TO BUILDERS, CABINET-MAKERS, AND OTHERS.

LEA'S PATENT MORTISE LOCKS and BOLTS

are a great improvement over the present mode of fastening all doors, internal and external; they are also much better and cheaper than the expensive-late fastening for French and other casements;

THE USE OF FLUSH BOLTS IS ENTIRELY SUPERSEDED,

and both doors are ingeniously and effectively rendered secure.

Prices, and every information, given at the Agents, A. L. PFEIL and Co., Whitefriars Ironmongers, 5 and 6, Broad-street, Bloomsbury.

By Her Majesty's Royal Letters Patent.

PITT'S PATENT SELF-ADJUSTING DOOR KNOBS AND LOOSE SPINDLES.

HART and SONS beg to invite the attention of architects, builders, and others, to their Door Furniture, mounted for PITT'S PATENTED SPINDLES. The knobs are stronger, more durable, and more elegant in form, than those in ordinary use, as the spindles, being loose, do not require the objectionable hole screw. They are more readily fixed, are suitable for every description of lock now in use, and, as they adjust themselves to doors of different thicknesses, without alteration, are particularly adapted for the country or for exportation. In addition to an extensive stock of door furniture in china, crystal, amber, and opal glass, buffalo horn, ivory, ebony, brass, &c., en suite with Barry plates, bell-pulls, and levers, new patterns of original design are constantly being added, and an order either to sketch or pattern supplied very promptly. A simple one, for example, in three days, and a more elaborate one in less than a week.—May be obtained through any ironmonger, or direct from the proprietors and sole manufacturers, HART and SONS, Wholesale Ironmongers, 33, 34, 35, Wych-street, Strand, London.

A list of prices sent on application.

MODELLING and SCAGLIOLA done by P. LOWLING, Architects, Builders, &c. supplied with all sorts of ornament in the different Cements on the most reasonable terms and shortest notice. P. L.'s style of making Scagliola with his new invented brilliant polish far surpasses anything yet offered to the public. Specimens to be seen at No. 12, Ivery lane, Ryder's Yards of Arcade, of very superior quality, for half the original cost.

BUILDERS and CARPENTERS' IRON- MONGERY WAREHOUSE, 18, Blandford-street, Manchester-square leading out of Baker-street, Portman-square. Lists of prices may be obtained on pre-paid application.

JOHN and EDWIN YOUNG, Proprietors.

CAST-IRON PIPES, IRON WORK FOR OVENS, &c.

IRON FOUNDRY,
87, DRURY-LANE, and CHARLES-STREET, DRURY-LANE
JOSEPH GLOVER,

Solicits the attention of the Trade to his extensive Stock of PATTERNS for CASTINGS of EVERY DESCRIPTION, consisting of those for every purpose, either structural or ornamental. Wheel Drives and Steam Engine Patterns. Range Fronts and Hot Plate Backs.

A stock of Rain-Water Pipes, Plain and O G Gutterings, Air Bricks, Sash Weights, &c. &c.

A very superior description of Wood Door, particularly suitable for internal work, being perfectly secure, and not unsightly.

ESTIMATES given for IRON ROOFING and every description of Ironwork, complete to specification, and the work executed with every attention to quality and dispatch.

GLOVER'S FOUNDRY,
No. 87, DRURY-LANE and CHARLES-STREET.

HOT-WATER APPARATUS.—The attention of architects, builders, and others is respectfully requested to BENJAMIN FOWLER'S superior method of heating churches and chapels, halls, staircases, conservatories, forcing and greenhouses, manufactories and warehouses, kilns, rooms for drying timber, &c., and every variety of purpose for which artificial heat is required. Within the last twenty years some hundreds of buildings have been heated upon this plan, and the parties for whom they were executed are continually expressing their satisfaction, and their willingness to vouch for their efficiency.

BENJAMIN FOWLER, late of 65, Dorset-street, removed to the new factory, Whitefriar-street, Fleet-street.
